**SURFACE CONDITIONING
STARS AND DISCS**

Even Cut offers a complete line of stars and disc products for the removal of corrosion, rust, and burs while minimizing loading and shedding. Surface conditioning products are produced from the highest quality nylon web fiber impregnated with resin and abrasive grain bonded to a tough reinforced nylon web backing material.

Stars are designed for tube ID's, pipe and other recessed applications. With a quick change eyelet they can be used on die grinders, drill presses or lathes. Mounted on hook and loop holders surface conditioning discs are best for finishing, cleaning, or light deburring on a variety of flat surfaces including steel, aluminum, and plastic.
